The diagram illustrates a header file dependency. At the top is a grey box representing the header file 'Gbox420\_Nano\_Hempey /src/Components/HempeyBucket.h'. Below it are two white boxes representing source files: 'Gbox420\_Nano\_Hempey /src/Components/HempeyBucket.cpp' on the left and 'Gbox420\_Nano\_Hempey /src/Modules/HempeyModule.cpp' on the right. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header.
