

HempyBucket_Web::website
Event_Field

WeightSensor_Web::website
Event_Field

WeightSensor::triggerCalibration

```
graph LR; A[HempyBucket_Web::website Event_Field] --> C[WeightSensor::triggerCalibration]; B[WeightSensor_Web::website Event_Field] --> C;
```

The diagram illustrates a dependency or data flow. On the left, there are two rectangular boxes. The top box contains the text 'HempyBucket_Web::website' followed by 'Event_Field' on a new line. The bottom box contains 'WeightSensor_Web::website' followed by 'Event_Field' on a new line. Arrows from the right side of both boxes point towards a single, shaded rectangular box on the right. This box contains the text 'WeightSensor::triggerCalibration'.
