

Gbox420\_Mega\_Main/src  
/Components\_Web/Lights\_Web.h

```
graph BT; A[Gbox420_Mega_Main/src/Components_Web/Lights_Web.h] <-- B[Gbox420_Mega_Main/src/Components_Web/Lights_Web.cpp]; A <-- C[Gbox420_Mega_Main/src/Modules_Web/MainModule_Web.cpp];
```

The diagram illustrates a header file dependency. At the top, a gray-shaded box represents the header file `Gbox420_Mega_Main/src/Components_Web/Lights_Web.h`. Below it, two white boxes represent source files. A blue arrow points from the left source file, `Gbox420_Mega_Main/src/Components_Web/Lights_Web.cpp`, up to the header file. Another blue arrow points from the right source file, `Gbox420_Mega_Main/src/Modules_Web/MainModule_Web.cpp`, up to the same header file. This indicates that both source files include or depend on the `Lights_Web.h` header.
