

AeroModule::processCommand

HempyModule::processCommand

Module::setMetric

```
graph LR; A[AeroModule::processCommand] --> C[Module::setMetric]; B[HempyModule::processCommand] --> C;
```

The diagram illustrates a relationship between three methods. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'AeroModule::processCommand' and the bottom box contains 'HempyModule::processCommand'. On the right, a gray rectangular box contains the text 'Module::setMetric'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'AeroModule::processCommand' and 'HempyModule::processCommand' call or utilize 'Module::setMetric'.
